

DECACLIMA: Air conditioning, air treatment and purification

DECACLIMA implements Microsoft Dynamics 365 Finance & SCM with CUROGENS

The functional areas of Purchasing, Warehouse with mobile devices, Sales, Planning, Production and Finance were implemented with assessment and validation of 572 business processes. This minimized the number of gaps, making only 19 customizations including the required legal & mandatory reports. During the design phase, some detected gaps were discarded, always following our philosophy of using the standard to the fullest possible extent.

Customer Engagement and Deep Knowledge Key to Project Success

Customer engagement and our deep knowledge of both the solution and the industry have been key to completing the project in 9 months, on time, as planned. Not only did we deliver on time, we delivered below budget.

The First Milestone in a Greater Plan for Sodeca Group

This is the first, critical milestone in a greater plan to implement Microsoft Dynamics 365 Finance & Supply Chain Management across the entire Sodeca Group, allowing all the companies in the group to take full advantage of the platform.
